Why Invest with Counsel Portfolios

Our Portfolio Management team builds and maintains our portfolios based on in-depth analysis to align to a broad range of investor risk profiles. We take an unbiased approach when choosing our money managers by incorporating a proprietary and disciplined methodology for researching and selecting independent asset managers from across the globe. Each manager is monitored and held accountable to their mandate to help ensure our investors have the best chance at achieving their financial goals.

Q3 2025 Fund Commentary

Market Commentary

Global equities gained over the third quarter of 2025 and outperformed global bonds, which posted a small gain (all returns in Canadian-dollar terms on a total return basis). Expectations that the U.S. Federal Reserve Board (Fed) would lower interest rates and ongoing investment and development in artificial intelligence (AI) helped boost stocks over the quarter.

The U.S. equity market advanced, posting a double-digit return. Information technology was the strongest-performing sector. Canadian equities increased and outperformed U.S. equities, getting a strong performance from the materials sector. EAFE equities advanced, underperforming Canadian and U.S. equities.

Equities in Japan and the U.K. contributed to the performance of EAFE equities. Emerging markets equities also advanced and outperformed their developed market peers, with equities in China and Taiwan contributing to performance.

The FTSE Canada Universe Bond Index posted a total return of 1.5% over the quarter. As government yields moved lower, government bond prices increased. Government bonds underperformed corporate bonds, which also posted a gain.

Corporate bond prices benefited from narrowing credit spreads (the difference in yield between corporate and government bonds). Real estate bonds posted the largest increase in the corporate sector. High-yield bond prices rose on a total return basis and outperformed investment-grade corporate bonds.

Global bond yields remained largely unchanged over the quarter, and global bond prices posted a small gain. The Bank of Canada, the Fed and the Bank of England lowered their policy interest rates. The European Central Bank and Bank of Japan held their policy interest rates steady. The yield on 10-year Government of Canada bonds fell from 3.27% to 3.18%. Government yields in the U.S. also declined. Government bond yields in the U.K., Germany and Japan increased.

Performance

The Pool's relative exposure to Royal Bank of Canada, The Toronto-Dominion Bank (TD Bank) and Colliers International Group Inc. contributed to performance. Royal Bank reported higher-than-expected earnings, driven by strong capital markets and credit improvement. TD Bank's performance was driven by lower credit provisions and strong Canadian and wholesale banking results. Colliers beat earnings expectations and raised its outlook for the second half of 2025.

Relative exposure to CGI Inc., Metro Inc. and Canadian National Railway Co. (CN Rail) detracted from performance. CGI's earnings came in ahead of expectations but concerns about lower organic growth and potential disruption from AI pressured the stock. Metro saw softer same-store food sales compared to market expectations. CN Rail reduced its 2025 earnings-per-share growth forecast because of weak volumes amid tariff concerns and economic softness.

At a sector level, stock selection in financials, real estate and consumer discretionary contributed to performance. Stock selection and underweight exposure to materials detracted from performance as the price of gold rose. Selection and overweight exposure to consumer staples, as well as underweight exposure to information technology, also detracted from performance.

Relative exposure to Teranet Holdings LP (3.719%, 2029/02/23) contributed to performance. The bond benefited from supportive technical factors and investor demand for credits with predictable cash flows. Exposure to Government of Canada (3.25%, 2028/09/01) detracted from performance as short-term federal bonds underperformed.

At a sector level, exposure to corporate bonds contributed to performance while federal government bond exposure detracted from performance.

Portfolio Activity

A position in NetApp Inc. was added to the Pool and positions in Royal Bank of Canada and CAE Inc. were reduced on strength.

Province of Alberta (2.05%, 2030/06/01) was increased for its valuation relative to other provincial bonds. Alberta continued to demonstrate fiscal discipline, supported by resource-driven revenues and prudent budget management.

Outlook

In the sub-advisor's view, the third quarter of 2025 highlighted divergence in global growth. The U.S. economy was resilient with gross domestic product growth near 3% annualized and productivity gains driven by AI adoption offsetting softer labour market trends. In contrast, Canada, Europe and the U.K. were weighed down by rising unemployment and trade challenges.

In the sub-advisor's view, equity markets reflect investor optimism, particularly in the U.S., where Al-driven earnings drove elevated valuations. Market concentration in technology and swings in investor sentiment are causes for caution.

Within fixed income, we view alternatives such as private credit and mortgages as valuable sources of income and duration management, particularly in a higher-for-longer environment. Liquidity and flexibility remain central, allowing portfolios to absorb sudden shocks if risks around AI investment, funding markets, or fiscal policy materialize.

There can be no assurance that the Fund's return or volatility targets will be met, or met over any particular time horizon. Targeted returns and volatility should be evaluated over the time period indicated and not over shorter periods. Targeted returns are not actual performance and should not be relied upon as an indication of actual or future performance.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

Counsel Portfolios are managed by Canada Life Investment Management Ltd. Counsel Portfolios are distributed by Quadrus Investment Services Ltd., IPC Investment Corporation, and IPC Securities Corporation, and may also be available through other authorized dealers in Canada.

*Minimum purchase for IPC Private Wealth Visio Pools is \$150,000. This may apply across Eligible Accounts. Please read the prospectus for details.

¹The asset allocation weights depicted above represent the neutral allocations for the fund and may differ from the current allocation. The neutral allocation may comprise a combination of investments in equities, fixed income securities, securities that are designed to track a market index or other securities. Canada Life Investment Management Ltd., the portfolio manager of the fund, has the discretion to change the allocation without prior notice. ²Effective holdings of the fund are held either directly, or through an underlying mutual fund. Asset allocations reflected are as a percentage of the fund's net asset value. Individual securities held by ETFs are not reflected in the Fund's Top Holdings listings. For money market fund reports: The current yield is an annualized historical yield based on the seven-day period ended on the date noted above and does not represent an actual one-year return. For information on the fund or any underlying Counsel funds, please read the Fund Facts, Simplified Prospectus and/or other reporting documents before investing, available at www.counselportfolios.ca. All third-party marks are used with permission.

Note: Occasionally, a negative value may be reported for Cash holdings that reflects the sale of securities and/or redemption transactions that have not settled at month end.

Distribution of the chart, history standard and short-term reports are not permitted without including the fund profile long-term report. Commissions, trailing commissions, management fees, and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the fund will be returned to you. Past performance may not be repeated. Reports produced using this website are for information purposes only.
